

Peer-to-peer Fundraising

Case Study: University of Minnesota

The University of Minnesota Foundation (UMF) coordinates and executes fundraising activities on behalf of all University of Minnesota campuses, colleges, and programs. UMF needed a robust, scalable crowdfunding platform to accommodate the diverse range of causes and interests of the more than 66,000 students on seven campuses, plus the associated faculty, staff, and alumni.

Solar Vehicle Project

The U's Solar Vehicle Project is traveling to Australia to compete in the 2017 World Solar Challenge. The 3,000 kilometer race will test the solar-electric vehicle prototype the team spent two years creating against the best Solar Car teams in the world.

Help get the team to Australia to represent the U of M in this adventure of a lifetime by making a gift today.

Bell Museum Educational Programs

**Give to build new perspectives on science, art, and nature.
Inspire generations of learners to the Max!**

The Bell Museum educational programs and exhibits build critical science literacy skills, inspire wonder about our universe, and empower generations to create a better future for our evolving world. Support our mission to ignite curiosity and wonder in learners of all ages by making a gift in support of our programs!

Maximize your gift! We'll double your donation.

We're putting the impact of giving on display! All donations to the Bell Museum educational programs will be matched dollar-for-dollar up to \$5,000 from November 12 - December 15, 2015.

By taking advantage of this match, you will double your donation, and double the impact of your support to the Bell Museum. For example, *your contribution of \$100* will be matched with an additional \$100, making \$200 available to support our educational programs.

Your gift makes a big impact!

Goal \$ 5,000.00

\$ 3,850.00 raised

The Results

Testimonial

The peer-to-peer fundraising pages “played a key role in helping to grow the University's giving day by more than 50 percent in 2015, when the U community raised \$515,000 in a single day for University causes”

Digital Content Manager, Robyn White

The Results

Happy donor community invests
money into their causes

The University of Minnesota Foundation and their donors benefit from this model that has predictable costs and avoids the high fees of commercial peer-to-peer fundraising services.

Website generated donations covered development costs within two months.

Conclusion

Drupal & CiviCRM Integration

Drupal / CiviCRM based platform
